

NAOUAL EL YAAKOUBI

Computer Science Student — Software Engineering — Al Akhawayn University, Ifrane

+212 777 123 435 | elyaakoubinaoual0@gmail.com | Casablanca, Morocco | linkedin.com/in/naoual-el-yaakoubi

EDUCATION

Al Akhawayn University

B.Sc. Computer Science — Software Engineering |
2022 – 2026

VŠB – TU Ostrava (Czech Republic)

Academic Exchange Semester | 2025

CETYS Universidad

Project Management | 2024

TECHNICAL SKILLS

- Python, Java, JavaScript
- C / C++ / React
- Data Structures & Algorithms
- Laravel, HTML/CSS
- Git / GitHub, REST API
- Next.js, NestJS, FastAPI
- PostgreSQL, Docker, Kubernetes
- Machine Learning (basics)

LANGUAGES

- English — Native (TOEFL 530)
- Arabic & Tamazight — Native
- French — Fluent
- Spanish — Elementary
- Czech — Basic notions

CERTIFICATIONS

- Problem Solving — University of Michigan
- Introduction to AI — IBM
- Data Analysis — 1M Arab Coders
- Java OOP — UC San Diego & Duke
- Programming Languages — University of Washington

SOFT SKILLS

- Leadership & Mentoring
- Project Management
- Critical Thinking
- Teamwork & Communication
- Intercultural Adaptability

PROFILE

Computer Science student specializing in Software Engineering, seeking a software engineering internship. Hands-on experience in full-stack development and software architecture gained during an internship at Crevap on an AI agent SaaS platform. Proficient in Python, Java, C/C++, JavaScript, and React. Demonstrated leadership mentoring a national hackathon-winning team and representing Morocco at the international Digital ID Hackathon.

PROFESSIONAL EXPERIENCE

Software Development Intern — Crevap

Final Year Project (PFE) · Supervisor: Mhanni Mohammed Amine

- Designed and developed AaaS, a multi-tenant SaaS platform exposing AI-powered sales agents through a central API, automating multichannel customer relations (web, WhatsApp, Messenger, Instagram) using real data from an e-commerce store.
- Microservices architecture combining LLM and RAG, multichannel connectors, and a recommendation engine. Stack: React/Next.js, NestJS/FastAPI, LangChain/LlamaIndex, PostgreSQL+pgvector, Docker/Kubernetes.

IT Department Support — Al Akhawayn University

- Diagnosed and troubleshooted university IT infrastructure and systems, ensuring continuity of IT services.

ACADEMIC PROJECTS & HACKATHONS

SmartMatch — Candidate-Recruiter Platform

Academic Project (AUI), 2024–2025

- Full-stack web application matching candidates with recruiters by skills and experience. Stack: Python, Java, Git, Agile.

Digital ID Hackathon — CMU Africa / AUI, International 2025

- Designed a digital identity solution for public service access in North Africa; presented to a panel of expert judges.

Zilzal Hawz — Earthquake Response System

AIESEC National Hackathon, 2023–2024

- Mentored the winning team; coordinated system architecture and real-time alerts for post-earthquake crisis management.

Library Management System

Academic Project (AUI), 2023

- Optimized a C library, cutting execution time by 25% through improved search and sort algorithms.
